The Central Arkansas Planning and Development District (CAPDD or the District) is a Planning and Development District (PDD) designated by the U.S. Economic Development Agency (EDA). As the region’s PDD, the District is responsible for developing a Comprehensive Economic Development Strategy (CEDS) that identifies economic and community development priorities for the District.

The CAPDD is comprised of all the county governments and incorporated municipalities within the counties of Faulkner, Lonoke, Monroe, Prairie, Pulaski and Saline. This CEDS plan follows the new guidelines set forth by the EDA and is a strategy-driven plan developed by a diverse workgroup of local representatives from the private, public and nonprofit sectors.

The District’s CEDS committee will work to create a strong relationship between action plans and performance measures for economic and community development at the regional, state, and federal levels.

WHAT IS A CEDS?

The Central Arkansas Planning and Development District (CAPDD or the District) is a Planning and Development District (PDD) designated by the U.S. Economic Development Agency (EDA). As the region’s PDD, the District is responsible for developing a Comprehensive Economic Development Strategy (CEDS) that identifies economic and community development priorities for the District.

The CAPDD is comprised of all the county governments and incorporated municipalities within the counties of Faulkner, Lonoke, Monroe, Prairie, Pulaski and Saline. This CEDS plan follows the new guidelines set forth by the EDA and is a strategy-driven plan developed by a diverse workgroup of local representatives from the private, public and nonprofit sectors.

THE DISTRICT’S CEDS IS COMPRISED OF FOUR SECTIONS:

1. Summary background of the economic conditions of the region;
2. In-depth SWOT analysis of regional strengths, weaknesses, opportunities and threats;
3. Action Plan outlining strategies drawn from the planning process that incorporates elements from the Delta Regional Authority’s (DRA) Delta Regional Five Year Development Plan and other applicable regional plans (e.g., land use and transportation and workforce development.) The plan identifies stakeholder(s) responsible for implementation, timetables, and opportunities for the integrated use of local, state, and federal funds.
Public meetings with regional partners were held in September of 2018 and January, February, and April of this year to discuss and/or present the various components of the CEDS document. The components of the planning process are included in the following timeline:

**MAY – JUNE 2018**
CAPDD staff conducted CEDS strategy meetings to devise a plan of action for developing the CEDS and establishing a CEDS Committee.

**AUGUST – SEPTEMBER 2018**
CAPDD partnered with the Arkansas Economic Development Institute (AEDI) to assist with data collection, analysis and facilitation of meetings. CEDS Survey distributed to committee members.

**SEPTEMBER 2018**
First full CEDS committee meeting held to discuss CEDS requirements and a process for developing the CEDS plan. A CEDS Survey was reviewed. Preliminary overview of economic and demographic data began.

**SEPTEMBER 2018 – JANUARY 2019**
CEDS survey to stakeholders, circulated, collected, and analyzed.

**JANUARY 2019**
Second full CEDS Committee meeting held to present final CEDS survey results and conduct a comprehensive SWOT analysis. Strategic target sectors were explained and the requirement to develop goals, action plans and a resiliency plan were discussed. A CEDS subcommittee that will assist with creating the action plan section is established.

**FEBRUARY 2019**
CEDS subcommittee met to determine action plan issues/goals and to develop specific action plan items.

**FEBRUARY 2019 – MARCH 2019**
CEDS subcommittee submitted draft of action plan issues/goals/resiliency sections to the full CEDS Committee for comment/feedback.

**APRIL 2019**
Draft of action plan issues/goals/resiliency sections presented to the full CEDS Committee Meeting for comment. Preparation of final CEDS document begins.

**APRIL – MAY 2019**
Final comments/feedback on full CEDS Document received.

**JUNE – JULY 2019**
Work continues on creating website/document.

**JULY 2019**
Full CEDS plan submitted to PDD Board of Directors for adoption. CEDS plan submitted to EDA.
The regional and county snapshots shown on the following pages highlight the demographic and economic statistics of the region. As the data shows, government services, health care and social assistance, and retail trade are the leading industries, with health care projected as the leading growth industry. To support these businesses, and develop a broader foundation in other industries such as advanced manufacturing, agriculture, and professional, scientific and technical services, it is essential that local governments in the region continue to collaborate on essential services such as workforce training, the built infrastructure, broadband, and housing.

From 2010 to 2017, the region has experienced moderate population growth of 5.4% just below the national average of 5.96%. Three counties, Pulaski, Faulkner and Saline contain almost 88% of the region’s population and most of the more densely populated urban areas. Saline County’s population grew 10% since the 2010 Census and Faulkner County increased 9.2%. Over the same period Lonoke and Pulaski counties experienced low to moderate growth at 6.6% and 2.9% respectively, and two counties, Monroe and Prairie, showed significant population loss.

The fastest growing age group in the region were residents over 65. Faulkner County leads the region with a 32.4% increase since 2010 in residents over 65 closely followed by Saline, Pulaski and Lonoke counties, each with increases topping 25%. Monroe and Prairie Counties also saw significant percentage jumps in the number of seniors. Addressing the needs of an aging population requires planning and strategic investment including additional transportation options, infrastructure improvements and access to affordable health care particularly in less affluent counties.

The CAPDD contains the state’s most populated and urban-oriented areas along with Arkansas’ most productive rural agricultural land. The Central Arkansas area is divided by the Arkansas River. Flat land lies to the east of the river and the mountainous land to the west. The eastern area is divided by the White River. Both the Arkansas and White Rivers are maintained for navigation, although the White River traffic is stopped during most summers due to low water levels.

Other eastern streams are the Cache River and the Bayou Meto. The western portion of the area contains the Ouachita River, Saline River, and Hurricane Creek. The northern part of the area includes Cadron Creek. Major lakes within the Central Arkansas area include Lake Maumelle in Pulaski County; Lake Conway in Faulkner County; Lake Winiona in Saline and Peckerwood Lake in Prairie County.

The area includes the most populous part of the state with urban and build-up land that is heavily agrarian on the east and heavily timbered on the west. In the 2017 Agricultural Census, the central area had 2,660,512 acres of land area, 1,164,172 acres of land area in farms, 732,880 acres of cropland harvested, and 582,750 acres of land area in forestland, minor and cover uses. In addition, catfish and minnow farming are important segments of the agricultural economy. It is estimated that 80% of the nations’ baitfish are produced in Lonoke and Prairie Counties.
Most of the economic growth of the region comes from Pulaski, Faulkner, and Saline Counties. Pulaski County is the state’s most populous county and historically Arkansas’ largest center of economic activity. It houses the state capitol and state government and is home to the state’s largest medical facilities. Faulkner County has experienced strong economic growth fueled primarily by the city of Conway and its vibrant educational institutions, health care facilities and retail trade. Since 2010, Saline County experienced the largest percentage increase in population growth in the District and added a significant number of jobs in health care, retail and manufacturing.

Though significantly smaller in population than Pulaski, Faulkner, and Saline counties, Lonoke County has experienced significant population growth and modest but steady job growth is projected for the next few years. Overwhelmingly rural and possessing a fraction of the population and resources of the other four counties, Prairie and Monroe represent a significant obstacle to effective economic development in the region. Their economies are dominated by agricultural and related industries and population in both counties has steadily declined since 2010.

Perhaps the greatest challenge facing the district is the disparity between the areas enjoying relative economic success and those struggling to keep their populations and maintain existing infrastructure and businesses. Despite remarkable growth in Saline and Faulkner counties and steady growth in Lonoke and Pulaski, many communities in the region lack up-to-date water or sewer service. Broad sections of the region lack accessible health care, adequate housing and Broadband internet access. Insufficient transportation infrastructure remains an important issue for residents and businesses particularly outside the more populated urban centers.

Smaller cities and rural areas often lack access to matching funds, grants and other services readily available to more economically successful cities and urban areas. This greatly limits their ability to initiate activities that effectively promote economic development and hampers the efforts of CAPDD and like-minded organizations to make effective changes in many communities facing real need.

To thrive economically, jurisdictions must work together to develop a well-balanced system of infrastructure, economic and community development that serves residents, supports communities, and attracts new businesses. The region must continue to be a place where talented people – and their businesses – want to be. This includes preserving and expanding the high quality of life in the region and providing the critical infrastructure needed by businesses to succeed. Supporting the economy requires providing the critical services necessary for the well-being of residents, the success of businesses and the safety of communities.
The region’s natural assets and cultural traditions set the area apart. Pulaski County has long been the cultural haven of the state, a center for music, theater, and the arts. Conway, Faulkner County’s college town, is the seat of a state university and two academically respected liberal arts colleges. Saline County, one of Arkansas’ fastest growing counties, strives to preserve the small town character of its urban areas while meeting the challenges of unprecedented growth and opportunity. Quaint small towns in Lonoke and the more sparsely populated counties of Prairie and Monroe, reflect the state’s agricultural traditions and evoke Arkansas’ early history through museums, historic buildings and town festivals.

The entire district is famous for its beautiful lakes, rivers and bayous. Fishing and boating are popular sports. Hiking in the foothills of the Ouachita Mountains and in Pinnacle Mountain Park attract thousands of visitors. Every county contains multiple parks that offer everything from bird watching to exploring historic settlements. In addition to attracting new residents, cultural and recreational tourism has grown into a thriving industry as people travel to the District to experience the unique regional character of the area.

- Cache River National Wildlife Refuge
- Arkansas Delta Music Trail
- Central Delta Depot and Museum
- Ivory Billed Duck Hunters Lodge
- Jacobs Park and Museum
- Clarendon Historic Walking Tour
Central Arkansas has the state’s second fastest growing economy. Although significant sections of the region remain poor and underpopulated, the district as a whole is experiencing relatively robust job growth. From 2018 to 2023, jobs in the area are projected to increase 4.6% from 443,371 to 464,985. Saline County’s projected job growth of 10% by 2023 is the highest in the region, followed by Faulkner, Prairie, and Lonoke which range from 6.3% to 5.6%; Pulaski should achieve a 4% increase and Monroe is expected to suffer a net loss of jobs (-2.0%) at the close of the five-year period.

As the economy grows so will the demand for individuals with strong skill sets in communications, engineering, advanced manufacturing processes, and computer and medical technology. The job skills required by the new economy are not the skills of generations past. Many require advanced degrees or unique abilities that call for specific training, certifications, licenses and apprenticeships.

Accordingly, CAPDD in compliance with the Workforce Competitiveness Goal of Arkansas’ Five Year Delta Development Plan and the Workforce Innovation and Opportunities Act (WIOA), has collaborated with the Central Arkansas Workforce Development Area (CAWDA) to help CAWDA provide a variety of employment and training programs that:

- link employers with potential employees and assists Central Arkansas businesses with recruiting, retaining, developing and maintaining a pipeline of qualified applicants.
- align workforce training programs with in-demand industry sectors within the region.
- use data analysis to meet the labor force needs of business and industry throughout the six county service area.
- provide a variety of job related services to area workers and potential workers through local workforce centers.

During 2016–2017 CAWDA, in line with WIOA, state, and federal guidelines, developed an up to date transitional local and regional workforce plan. New goals and strategies were developed based on a comprehensive analysis of workforce and economic conditions in the area, employment needs by industry, and an assessment of all existing service delivery to employers and job seekers.

In addition, a comprehensive draft of a CAWDA local workforce plan for 2020–2024, another WIOA requirement, has been completed to provide more actionable plans and objectives consistent with the local plan’s respective regional strategic visions and goals.
REGIONAL SWOT ANALYSIS

STRENGTHS

- Good Public Schools (Pre-K availability)
- Safety
- Infrastructure
- Access to Quality Health care
- Fire Departments
- Water Quality
- Cultural and Recreational Activities
- Natural Beauty
- Churches
- Places with Historical Significance (ex. Fargo Agricultural School)

WEAKNESSES

- Public Transportation
- Opportunities for Young People
- Struggling Downtowns
- Infrastructure funding and maintenance
- Entrepreneurial Training Opportunities
- Affordable Housing
- Aging Population
- Road Work

OPPORTUNITIES

- Infrastructure
  - Public transportation
  - Growth
  - Access roads
  - City infrastructure
  - Highways and roads
  - Interstate access (In progress)
  - Replacement of aging infrastructure
  - Outside funding for infrastructure
  - Street work needed to give property owners access to property owned
  - Rail/Highways
  - Rail access
  - Regional Airport
  - Affordable housing
  - Internet access
  - Little Rock Air Force Base
  - Available workforce
  - High School Career Technical Center
  - Job opportunity
  - Opportunities for Young People
  - Specialized workforce
  - Work-skill training
  - A large tract of property available in the Industrial Park
  - Available land for economic development
  - Mega Site
  - Retail destination
  - Retail growth opportunities at the new I-40 interchange
  - Space for medium industry
  - Supply hub

- Business Sites
  - National and Regional Perception
  - Challenging retail environment
  - Plant closings
  - Shopping opportunities
  - There are no stores or gas stations
  - We have nowhere but the POWA to work at in Paron. Most people travel to Little Rock or Benton for work.
  - Absent landowners not making efforts to sell
  - Availability of land/buildings
  - Land Prices
  - Land Space Availability
  - Limited access to many properties
  - Locations for company growth
  - Cost of land controlled by landowners.

- Workforce
  - Labor supply
  - Lack of trained workforce
  - Not enough workforce to fill jobs

THREATS

- Infrastructure
  - Public transportation
  - Traffic congestion
  - Access to rail
  - Inadequate utilities
  - Industrial Sites outside the Port
  - Interstate
  - Lagging Infrastructure
  - Affordable housing
  - Public schools
  - Little Rock Air Force Base
  - Tax base
  - National and Regional Perception
  - Challenging retail environment
  - Plant closings
  - Shopping opportunities
  - There are no stores or gas stations
  - We have nowhere but the POWA to work at in Paron. Most people travel to Little Rock or Benton for work.
  - Absent landowners not making efforts to sell
  - Availability of land/buildings
  - Land Prices
  - Land Space Availability
  - Limited access to many properties
  - Locations for company growth
  - Cost of land controlled by landowners.

- Business
  - National and Regional Perception
  - Challenging retail environment
  - Plant closings
  - Shopping opportunities
  - There are no stores or gas stations
  - We have nowhere but the POWA to work at in Paron. Most people travel to Little Rock or Benton for work.
  - Absent landowners not making efforts to sell
  - Availability of land/buildings
  - Land Prices
  - Land Space Availability
  - Limited access to many properties
  - Locations for company growth
  - Cost of land controlled by landowners.

- Land Issues
  - National and Regional Perception
  - Challenging retail environment
  - Plant closings
  - Shopping opportunities
  - There are no stores or gas stations
  - We have nowhere but the POWA to work at in Paron. Most people travel to Little Rock or Benton for work.

  - Land Space Availability
  - Limited access to many properties
  - Locations for company growth
  - Cost of land controlled by landowners.

- Workforce
  - Labor supply
  - Lack of trained workforce
  - Not enough workforce to fill jobs
The diverse and robust economy of Central Arkansas derives from the strength of local communities and the powerful economic engine provided by the metro areas in Pulaski, Faulkner and Saline counties. The region’s economic opportunities and its rich and unique quality of life encourage businesses to expand, locate or develop here. This creates a resilient economy critical to long-term growth and financial stability for families.

Merriam-Webster defines resilience as, “an ability to recover from or adjust easily to misfortune or change.” CAPDD believes establishing economic resilience in a local or regional economy requires anticipating risk, assessing how that risk affects key economic assets, and building a responsive capacity. Often, the shocks or disruptions to the economic base of an area or region occur in three ways:

- Downturns or other significant events in the national or international economy that affect demand for locally produced goods and consumer spending.
- Downturns in particular industries that constitute a critical component of the region’s economic activity.
- Other external shocks (a natural or manufactured disaster, closure of a military base, exit of a major employer, impacts of climate change, etc.)

The District can help the region respond to changes in the economy through Steady-state and Responsive initiatives. Steady-state initiatives are long-term efforts that bolster the community or region’s ability to withstand or avoid a shock. Responsive initiatives provide economic development organizations the capability to assist with recovery. CAPDD and CEDS have adopted this two-pronged approach to develop strategies and performance measures.

**STEADY-STATE INITIATIVES INCLUDE:**

- Incorporating economic resiliency into existing planning efforts, such as hazard mitigation or transportation plans.
- Ensuring our workforce development and community/economic development teams work together to identify employment training or infrastructure investment opportunities when emerging sectors are identified.
- Continuing to work with the education and workforce training communities to build a resilient workforce that can easily shift between jobs or industries.
- Leading efforts to capitalize on the region’s strengths identified through the CEDS.
- Continuing to promote strategic economic assessments at the community level to identify strengths and weaknesses.
- Informing elected officials about resiliency by scheduling speakers at CAPDD board meetings.

**RESPONSIVE INITIATIVES INCLUDE:**

- Strengthening coordination between the local Workforce Development Board and economic development entities within the region to address employer and employee needs more effectively during times of economic downturn.
- Inviting businesses and economic development types to meetings regarding workforce initiatives, (i.e. the local partner’s meetings coordinated by WIOA staff members.)
- Utilizing the local Workforce Development Board to communicate directly with businesses to understand the needs of the business community.
- Considering economic resiliency when identifying projects to include in hazard mitigation plans.
To make our economy more resilient, the CEDS committee identified eight priority areas. These priorities also meet the District’s long standing commitment to Arkansas’ Five Year Delta Development Plan for the DRA. Pulaski, Lonoke, Prairie and Monroe Counties fall within the DRA and CAPDD. Beginning in 2016, they embraced the three strategic goals of the plan: Workforce Competitiveness, Infrastructure and Community Competitiveness.
**Benefit to the Community**

Improving the public image of Central Arkansas will encourage economic growth, spur investment and improve the quality of life for District residents.

**Issue**

The District's public image has handicapped efforts to recruit businesses, industry and public and private investment needed for sustainable economic growth.

**Strategy**

Establish a systematic, collaborative and regional approach to reshaping the region’s image that conveys a positive investment climate and a unique and desirable quality of life.

**Action Steps:**

- Work with public and private businesses, chambers of commerce, local and county governments, and non-profit organizations to create a collaborative region wide approach to reshaping the area's public image.

- Systematically encourage websites focused on economic growth and investment and recruiting new businesses and industry to include more information on the positive aspects of the Region's economic and community life.

- Work with consulting company Development Consultants Incorporated (DCI) hired by Metro Little Rock Alliance (MLRA) to build a positive image of Little Rock Metro area.

- Locate and publicize economic success stories from cities, towns and local communities.

- Insure that the information and stories designed to reshape the image of the region reflect the concerns and interests of GenX, Millennials and Gen Z.

- Make systematic use of social media outlets to highlight economic success stories.

- Work with small businesses, local companies and industries interested in community profile stories that highlight economic growth and community development.

**Responsible Parties:**

- CAPDD staff
- City and county government officials and elected leaders
- DCI

**Resources Needed:**

- MLRA, chambers of commerce
- Selected innovative businesses and industries
- DCI
- Non-profit organizations that promote a positive image for the District

**Estimated Completion Date:**

- On-going
Benefit to the Community

Improving transportation will result in a better working environment for business and industry, increased job opportunities, a more stable workforce and a better quality of life.

Issue

A lack of effective and reliable transportation options limits the effectiveness of area business and industry and negatively affects job opportunities and work attendance.

Strategy

Increase transportation options for business, industry and area residents.

Action Steps:

- Explore regional mass transit options with Rock Region METRO.
- Extend Rock Region METRO’s innovative Van Pool program to rural areas of the region.
- Work with area employers to encourage them to provide low cost transportation options for transporting their employees to work.
- Publicize the number and nature of existing direct flights out of Little Rock Airport
- Encourage the airlines to establish more direct flights out of Little Rock Airport

Responsible Parties:

- CAPDD staff
- State and local public officials

Resources:

- CAPDD staff
- Rock Region METRO
- Little Rock Airport Commission
- Airlines

Estimated Completion Date:

- On-going
Benefit to the Community

Improving health care will result in a healthier and more productive population with an improved quality of life.

Issue

Lack of access to effective health care outside more populated urban areas has resulted in a less productive workforce and a diminished quality of life for residents in many areas of central Arkansas.

Strategy

Improve access to effective health care.

Action Steps:

- Encourage the University of Arkansas for Medical Sciences (UAMS) to place more medical residents into local area clinics.
- Increase the number of nurses and doctors in area medical facilities.
- Determine if the DRA’s “Delta Doctors” program can address medical personnel shortages.
- Increase access to mental health treatment for area residents.
- Promote use of new technologies that improve patient access to medical personnel and treatments.

Responsible Parties:

- CAPDD staff
- DRA

Resources:

- Area Hospitals
- Area universities and colleges
- DRA
- Medical clinics
- Medicaid insurance

Estimated Completion Date:

- On-going
Benefit to the Community

Increasing responsible and sustainable industrial development creates good paying jobs.

Issue

Lack of identifiable potential industrial sites with appropriate resources hampers attempts to recruit both large and small-scale industrial businesses.

Strategy

Work across jurisdictional lines and boundaries to acquire potential sites that could benefit residents in large segments of the region.

Action Steps:

- Identify and catalogue potential development sites within the region.
- Support and encourage the development of Brownfield sites.
- Educate local and county officials about the advantages of regional cooperation and investing in sites that lie outside their immediate jurisdiction.
- Acquaint city, local and county officials with the terms of Amendment 82 to encourage regional approaches to site development that require collaboration between cities, towns and counties.
- Convene community meetings to explain the benefits of regional economic cooperation to area residents.
- Make local officials aware of the need for public-private partnerships.
- Convince private property owners of the need to establish suitable development sites to attract industry.
- Establish a pool of state funds to help communities and regions develop suitable sites for industrial development.

Responsible Parties:

- CAPDD staff
- Arkansas Economic Development Commission (AEDC)
- Local city and county officials
- County Economic Development Directors

Resources:

- Public and private utilities
- County economic development directors
- Relevant state legislators and senators

Estimated Completion Date:

- On-going
**Benefit to the Community**

Increased employment will encourage economic and community development, decrease out migration and improve the quality of life for District residents.

**Issue**

Many District employers consistently complain that a significant number of local residents lack the skills and motivation to succeed in the existing job market.

**Strategy**

Work with employers and educators to develop training programs and job placement strategies that reflect the rapidly changing job market of the region.

**Action Steps:**

- Foster incumbent worker training for occupations that are rapidly innovating or at increased risk for automation.
- Increase non-traditional and accelerated study programs for adults.
- Work closely with area community colleges and technical schools to develop training focused on skill-based certificates.
- Educate area business about Office of Skills Development (OSD) grants and the opportunities they provide for workforce training.
- Promote North Little Rock School District’s (NLRSD) ‘Center of Excellence’ as a potential model for career-based training for area high schools.
- Work with the new Saline County Technical Education Center to help area business see the Center as a valuable resource for training and recruiting future employees.
- Collaborate with the Arkansas Apprenticeship Pathway Initiative (AAPI) to help promote the 600 plus new apprenticeships available under the grant AAPI received from the Department of Labor.
- Collaborate with the Department of Workforce Services (ADWS) to develop and implement a survey of area businesses to determine their workforce needs.

**Responsible Parties:**

- CAPDD staff
- Local city and county officials

**Resources:**

- NLRSD
- Chambers of commerce
- Area technical schools, community colleges and universities
- Arkansas Department of Career Education (ACE), OSD
- ADWS
- AAPI

**Estimated Completion Date:**

- On-going
Benefit to the Community

More affordable housing will encourage economic and community development, decrease out migration and improve the quality of life for District residents.

Issue

A lack of affordable housing outside more populated urban areas makes it more difficult for new businesses or industries to locate in the region.

Strategy

Help communities understand affordable housing and the need for building more of it.

Action Steps:

• Develop a working definition of affordable housing linked to the housing market in each community.
• Meet with Rausch Coleman Homes to explore their approach to building low cost affordable housing.
• Compile a list of reliable builders and developers interested in providing low cost affordable housing, particularly multi-family and single family dwellings in rural areas.
• Work with area banks to raise awareness of the need for affordable housing and develop new and innovative methods for securing financing.
• Work with non-profit organizations, public schools and community colleges to establish (or enhance existing) financial education programs for area residents.
• Assist local housing authorities with pursuing resources and funding through the Arkansas Development Finance Authority (ADFA) and other agencies

Responsibility Parties:

• CAPDD staff
• Local city and county officials
• Local housing authorities

Resources:

• Rausch Coleman Homes
• Arkansas Home Builders Association (AHBA)
• Area bankers
• Area title companies
• Area realtors
• Area high schools and community colleges
• Local city and county officials
• Relevant non-profit organizations
• Local housing authorities

Estimated Completion Date:

• On-going
**Benefit to the Community**
Greater safety enhances quality of life and improves community image.

**Issue 1**
Safety services, particularly in rural areas, need to be upgraded and modernized.

**Strategy**
Raise awareness of the need for towns and communities to assess and improve the effectiveness of their emergency services including police, fire and 911.

**Action Steps:**
- Research ‘best practices’ used by states that provide effective and comprehensive 911 services.
- Explore the options provided by new state legislation focused on establishing ‘Next Generation’ wireless/internet based 911 services.
- Secure funding for new 911 technologies.
- Secure funding for updating rural 911 services.
- Provide training support for rural police and fire departments.

**Issue 2**
Many area communities must be better prepared to respond and recover from natural disasters.

**Strategy**
Increase the availability and effectiveness of Emergency Management services.

**Action Steps:**
- Raise awareness of the need for towns and communities to improve their Disaster Recovery Preparedness plans and procedures.
- Work with County Emergency Directors and the Arkansas Department of Emergency Management (ADEM) to update or create Disaster Response and Recovery plans at the county and municipal level.
- Assist local communities with locating resources to pay for training of critically needed Emergency Management personnel.

**Resources:**
- ADEM
- Local county, city and municipal officials
- AEDC Division of Rural Services

**Estimated Completion Date:**
On-going
**Benefit to the Community**

Economic growth, enhanced safety, increased mobility and an improved quality of life.

**Issue**

Critical aspects of the District’s essential infrastructure need repair, updating or rebuilding.

**Strategy**

Improve water, sewer, transportation and industrial infrastructure and extend broadband coverage.

**Action Steps:**

- Conduct an inventory of potential traditional and non-traditional funding for infrastructural needs available from state and federal sources.
- Convene all local, state and federal infrastructural professionals and policy leaders to identify priorities and develop a cost effective short term and long term approach to strengthening and expanding the district’s infrastructure.
- Extend utilities and improve roads to existing industrial sites, especially ports.
- Provide more rail sites.
- Educate county and local officials to the difficulty of convincing a company or industry to invest in a site without adequate infrastructure.
- Meet with region’s telecommunication providers to explore options for extending broadband coverage to underserved rural areas.
- Explore the feasibility of creating logistics parks.

**Responsible Parties:**

- CAPDD staff
- Local county, city and municipal officials
- District, state and federal infrastructure professionals
- Telecommunication providers

**Resources:**

- CAPDD staff
- Local county, city and municipal officials
- District, state and federal infrastructure professionals
- Telecommunication providers

**Estimated Completion Date:**

- On-going

1 U.S. Census Bureau, 2013–2017 American Community Survey 5-Year Estimates, 2 Bureau of Economic Analysis, released March 6, 2019, 3 EMSI Q2 2019 Data Set
## PRIORITY 1: IMPROVE REGIONAL IMAGE

<table>
<thead>
<tr>
<th>Action Steps</th>
<th>Responsible Entities</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Meet with DCI.</td>
<td>CAPDD</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Create region wide media network focused on providing economic success stories from the District to traditional and social media outlets.</td>
<td>CAPDD, city &amp; county government officials</td>
<td>1–5 yrs.</td>
</tr>
</tbody>
</table>

## PRIORITY 2: IMPROVE TRANSPORTATION SYSTEM

<table>
<thead>
<tr>
<th>Action Steps</th>
<th>Responsible Entities</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Meet with Rock Region METRO to explore mass transit options for the District.</td>
<td>CAPDD</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Publicize the number and nature of existing direct flights out of Little Rock Airport.</td>
<td>CAPDD</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Meet with selected employers to encourage them to explore low cost options for transporting their employees to work.</td>
<td>CAPDD, chambers of commerce</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Extend Rock Region METRO's Van Pool Program to rural areas of the District.</td>
<td>CAPDD, state &amp; local public officials</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Meet with airlines to encourage more direct flights out of Little Rock Airport.</td>
<td>CAPDD</td>
<td>3–5 yrs.</td>
</tr>
</tbody>
</table>

## PRIORITY 3: IMPROVE HEALTH CARE AVAILABILITY TO AREA RESIDENTS

<table>
<thead>
<tr>
<th>Action Steps</th>
<th>Responsible Entities</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Meet with UAMS to encourage the school to place more medical residents into local area clinics.</td>
<td>CAPDD, DRA</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Meet with the DRA to determine if the &quot;Delta Doctors&quot; program can address medical personnel shortages.</td>
<td>CAPDD, DRA, area hospitals, medical clinics, local city &amp; county officials</td>
<td>3–7 yrs.</td>
</tr>
<tr>
<td>Increase the number of nurses and doctors in area medical facilities.</td>
<td>CAPDD, DRA, area hospitals, medical clinics, local city &amp; county officials</td>
<td>3–7 yrs.</td>
</tr>
<tr>
<td>Promote use of new technologies that improve patient access to medical personnel and treatments.</td>
<td>CAPDD, DRA, area hospitals, medical clinics, local city &amp; county officials</td>
<td>3–7 yrs.</td>
</tr>
</tbody>
</table>

## PRIORITY 4: ACQUIRE MORE POTENTIAL INDUSTRIAL DEVELOPMENT SITES

<table>
<thead>
<tr>
<th>Action Steps</th>
<th>Responsible Entities</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Meet with local and county officials to promote the advantages of regional cooperation and investing in sites that lie outside their immediate jurisdiction.</td>
<td>CAPDD, AEDC</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Hold community meetings to explain the benefits of regional economic cooperation to area residents.</td>
<td>CAPDD, AEDC, local city &amp; county officials, County economic development directors</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Identify and catalogue potential development sites within the region.</td>
<td>CAPDD, AEDC, local city &amp; county officials, County economic development directors</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Support and encourage the development of Brownfield sites.</td>
<td>CAPDD, AEDC, local city &amp; county officials, County economic development directors</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Acquaint local officials with the need for public-private partnerships.</td>
<td>CAPDD, AEDC, local city &amp; county officials, County economic development directors</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Convince private property owners of the need to establish suitable development sites to attract industry.</td>
<td>CAPDD, AEDC, local city &amp; county officials, County economic development directors</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Establish a pool of state funds to help communities and regions develop suitable sites for industrial development.</td>
<td>CAPDD, AEDC, local city &amp; county officials, County economic development directors</td>
<td>1–5 yrs.</td>
</tr>
</tbody>
</table>

## PRIORITY 5: CREATE A MORE EMPLOYABLE WORKFORCE

<table>
<thead>
<tr>
<th>Action Steps</th>
<th>Responsible Entities</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Foster incumbent worker training for occupations that are rapidly innovating or at increased risk for automation.</td>
<td>CAPDD, ACE, OSD, ADWS, local city &amp; county officials, chambers of commerce</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Increase non-traditional and accelerated study programs for adults.</td>
<td>CAPDD, ACE, OSD, local city &amp; county officials</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Work closely with area community colleges and technical schools to develop training focused on skill-based certificates.</td>
<td>CAPDD, ACE, OSD, area technical schools, community colleges &amp; universities</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Educate area business about OSD's grants and workforce training opportunities.</td>
<td>CAPDD, ACE, OSD, chambers of commerce</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Collaborate with the AAPI to help promote the 600 plus new apprenticeships available under the grant AAPI received from the Department of Labor.</td>
<td>CAPDD, AAPI, chambers of commerce</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Collaborate with the ADWS to develop and implement a survey of area businesses to determine their workforce needs.</td>
<td>CAPDD, ADWS</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Promote NLRSD's 'Center of Excellence' as a potential model for career-based training for area high schools.</td>
<td>CAPDD, local city &amp; county officials, chambers of commerce</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Work with the new Saline County Technical Education Center to help area business see the Center as a valuable resource for training and recruiting future employees.</td>
<td>CAPDD, local city &amp; county officials, chambers of commerce</td>
<td>1–5 yrs.</td>
</tr>
</tbody>
</table>
### PRIORITY 6: INCREASE AFFORDABLE HOUSING

<table>
<thead>
<tr>
<th>ACTION STEPS</th>
<th>RESPONSIBLE ENTITIES</th>
<th>TIME</th>
</tr>
</thead>
<tbody>
<tr>
<td>Meet with Rausch Coleman Homes to explore their approach to building low</td>
<td>CAPDD</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>cost affordable housing.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Work with area banks to raise awareness of the need for affordable housing</td>
<td>CAPDD, ADFA</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>and develop new and innovative methods for securing financing.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Assist local housing authorities with pursuing resources and funding through</td>
<td>CAPDD, AFDA, local housing authorities</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>the ADFA and other agencies.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Compile a list of reliable builders and developers interested in providing</td>
<td>CAPDD, local housing authorities</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>low cost affordable housing, particularly multi-family and single family</td>
<td></td>
<td></td>
</tr>
<tr>
<td>dwellings in rural areas.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Develop a working definition of affordable housing linked to the housing</td>
<td>CAPDD, local housing authorities, local city &amp; county</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>market in each community.</td>
<td>officials</td>
<td></td>
</tr>
<tr>
<td>Work with non-profit organizations, public schools and community colleges</td>
<td>CAPDD, relevant non-profit organizations, area public</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>to establish (or enhance existing) financial education programs for area</td>
<td>schools &amp; community colleges</td>
<td></td>
</tr>
<tr>
<td>residents.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### PRIORITY 7: IMPROVE PUBLIC SAFETY

**ISSUE 1: Safety services, particularly in rural areas, need to be upgraded and modernized.**

<table>
<thead>
<tr>
<th>ACTION STEPS</th>
<th>RESPONSIBLE ENTITIES</th>
<th>TIME</th>
</tr>
</thead>
<tbody>
<tr>
<td>Research 'best practices' used by states that provide effective and</td>
<td>CAPDD, ADEM, county emergency directors, local county,</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>comprehensive 911 services.</td>
<td>city &amp; municipal officials</td>
<td></td>
</tr>
<tr>
<td>Explore the options provided by new state legislation focused on establishing</td>
<td></td>
<td></td>
</tr>
<tr>
<td>'Next Generation' wireless/internet based 911 services.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Secure funding for new 911 technologies.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Secure funding for updating rural 911 services.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Provide training support for rural police and fire departments.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**ISSUE 2: Many area communities must be better prepared to respond and recover from natural disasters.**

<table>
<thead>
<tr>
<th>ACTION STEPS</th>
<th>RESPONSIBLE ENTITIES</th>
<th>TIME</th>
</tr>
</thead>
<tbody>
<tr>
<td>Raise awareness of the need for towns and communities to improve their</td>
<td>CAPDD, ADEM, county emergency directors, local county,</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Disaster Recovery Preparedness plans and procedures.</td>
<td>city &amp; municipal officials</td>
<td></td>
</tr>
<tr>
<td>Work with County Emergency Directors and the ADEM to update or create</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Disaster Response and Recovery plans at the county and municipal level.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Assist local communities with locating resources to pay for training of</td>
<td></td>
<td></td>
</tr>
<tr>
<td>critically needed Emergency Management personnel.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### PRIORITY 8: IMPROVE REGIONAL INFRASTRUCTURE

<table>
<thead>
<tr>
<th>ACTION STEPS</th>
<th>RESPONSIBLE ENTITIES</th>
<th>TIME</th>
</tr>
</thead>
<tbody>
<tr>
<td>Educate county and local officials to the difficulty of convincing a company</td>
<td>CAPDD, AEDC, local county, city &amp; municipal officials,</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>or industry to invest in a site without adequate infrastructure.</td>
<td>district, state &amp; federal infrastructure professionals</td>
<td></td>
</tr>
<tr>
<td>Explore the feasibility of creating logistics parks.</td>
<td></td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>Explore the feasibility of creating logistics parks.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Conduct an inventory of potential traditional and non-traditional funding</td>
<td>CAPDD, local county, city &amp; municipal officials,</td>
<td>1–5 yrs.</td>
</tr>
<tr>
<td>for infrastructural needs available from state and federal sources.</td>
<td>district, state &amp; federal infrastructure professionals,</td>
<td></td>
</tr>
<tr>
<td>Convene all local, state and federal infrastructural professionals and</td>
<td>telecommunication providers</td>
<td></td>
</tr>
<tr>
<td>policy leaders to identify priorities and develop a cost effective short</td>
<td></td>
<td></td>
</tr>
<tr>
<td>term and long term approach to strengthening and expanding the district's</td>
<td></td>
<td></td>
</tr>
<tr>
<td>infrastructure.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Extend utilities and improve roads to existing industrial sites, especially</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ports.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Provide more rail sites.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Meet with region's telecommunication providers to explore options for</td>
<td></td>
<td></td>
</tr>
<tr>
<td>extending broadband coverage to underserved rural areas.</td>
<td></td>
<td></td>
</tr>
